Gateway Gardens

A garden worthy of a great city

Explore!

Gateway Gardens represents the biggest project ever undertaken in the 50+ year history of Greensboro Beautiful. Eventually spanning 11 acres, Gateway Gardens is

a stunning entryway into the City of Greensboro

a playful and interactive garden

a horticultural oasis integrating elements of history, movement, discovery, art, and community

Greensboro Beautiful continues to raise funds to complete the development of the garden. Small and large gifts are welcome, and naming opportunities are available. See more at GreensboroBeautiful.org.
